### **Social Psychology The Mere Presence of Others**

When tasks are relatively easy, we find the presence of other people a positive stimulus such that we

perform even better. However, when the tasks are difficult, we find an audience unnerving & do worse. It seems that the presence of others increases physiological arousal such that our bodies become more energized, and when we are aroused it is more difficult to perform new or difficult tasks. The dominant response, under arousal, is easier to perform.
